About this space

Chorus & Music Room

Elementary School

The chorus and music room for elementary school comes equipped with music chairs that can be easily arranged for choral lessons or to practice for a performance. Adjustable music stands hold sheet music in place and can be easily adjusted to match each student's height. A swivel stool allows the music teacher to easily move from facing the piano to facing their students.

Requirements for a Great Chorus & Music Room

For **students**, the chorus and music room should provide a comfortable seating arranged near the piano for vocal practice. Students should be able to enter and exit their seats easily and have a clear view of the director.

For **teachers**, the chorus and music room should be equipped with ample storage for classroom supplies, musical instruments and music books. Open walkways should make it easy for both teacher and students to move around easily. A teacher's desk accommodates lesson planning and personal storage.

For **administrators**, the chorus and music room should be furnished in a way that meets the needs of their school. Products must be readily available and delivered on time. Installation should be quick and efficient

Chorus & Music Room Solutions from School Outfitters

School Outfitters' research and development team designed a chorus and music room that caters to the needs of students and teachers alike. We've selected furnishings that will accommodate choral ensembles and vocal lessons but may also be used for sing-alongs and musical games or activities. A dedicated **singer's area**, **director's area** and **storage area** make creating a great chorus and music room simple.

The **singer's area** seats choral ensembles, so they have a clear view of the director.

- **Music chairs** with straight backs ensure proper singing posture. The contoured seats keep students comfortable.
- **Music stands** should be height-adjustable, and sturdy enough to support chorus folders as well as sheet music.

The **director's area** should be positioned so that the music teacher can be easily seen by all students in the room.

- A **swivel stool** allows the music teacher to easily move from facing the piano, to facing the singers. An armless design ensures the teacher can play the piano unhindered.

- A music-lined **dry-erase board** features a set of staff lines, making it simple for the conductor to provide musical examples to the class, or to teach aspects of beginner's music theory.
- An adjustable-height **music stand** holds the conductor's music.
- A **teacher's desk** gives the music educator a plan to plan lessons, select music, make assessments or meet with individual students.

The **storage area** provides students with a place to bookbags and personal belongings during class, and keeps sheet music organized and easy to find.

- A **lockable storage cabinet** secures materials that may require teacher supervision. Teachers may also opt to use this cabinet to secure their personal belongings.

- Lockable **music storage cabinets** keep sheet music organized.
- **Open shelving** provides a place where students can leave their bookbags and instrument cases, keeping them out of the way during band practice. Shelving may also be used to store instruments, music books, metronomes or other supplies.
- **Rhythm instruments** assist students in learning to tap out rhythms and stay on beat as they sing.
