About this space

Student Activities and Clubs—Middle & High School

A dedicated space for student meetings and clubs encourages students to use the area and keeps them comfortable during activities. Whether it's implemented in a media center, common area, classroom or simply tucked away under a stairwell, this space should feature flexible, comfortable furnishings that students can move and arrange into configurations as needed.

Requirements for a Student Activities and Clubs Area

For **students**, the student activities and clubs area should feature comfortable seating and workspaces that can accommodate several students at once. Easy access to outlets or charging ports ensures student devices remain charged and ready for use. Soft seating encourages students to spend more time in the student center.

For **teachers,** the student activities and clubs area should include flexible furniture and comfortable seating to encourage students to spend more time there. Collaborative furniture should be flexible and easy to move for use with groups of various sizes.

For **administrators,** the student activities and clubs area should be equipped with furniture that works to meet the goal for the space. All products must be available as soon as they are needed and delivered on time. Installations must be quick and efficient.

Student Activities and Clubs Solutions from School Outfitters

School Outfitters' research and development team designed an area for student activities and clubs that caters to the needs of students and teachers alike. Our carefully selected furnishings provide everything students need to hold study sessions, meet with their after-school clubs or socialize. **Collaboration areas** and **informal gathering areas** work together to create a great space for student activities and clubs.

Collaboration areas give students the space they need to work on projects and group activities. They should easily rearrange to create configurations for forums, debates, or roundtable discussions. These areas include:

- **Collaborative tables**
- **Mobile seating**
- **Mobile storage**

Collaborative tables feature spacious work areas where students can spread out project materials or devices. The table shapes are designed to let all students see each other, giving everyone an equal opportunity to participate.

Mobile seating is easy to move and arrange into groups.

Mobile storage can be rolled directly to collaboration stations, to make distributing and collecting supplies easy.

Informal gathering areas feature comfortable furnishings that invite students into these breakout spaces. These areas include:

- **Soft seating**
- **Power-enabled furnishings**

Soft seating creates a cozy, comfortable gathering space where students can meet with a club or simply hang out and socialize.

Power-enabled furnishings give students a place to charge their devices.

Choosing your Student Activities and Clubs Solution

School Outfitters makes it simple to outfit your school's student activities and clubs area. Choose the option that best fits your budget and needs and get an itemized quote with just one click, including all three of our specially-designed solutions.
